SUMMARY:

I am a Technology Specialist with a passion for frontend development. I have a Bachelor degree in Information Management (BIM) and over 2 years of experience in building responsive and user friendly websites. I have good skills in React JS, API integration, UI design, and Figma. I enjoy learning new technologies and solving challenging problems.

PROFESSIONAL SKILLS:

React Js :

Proficient in React Js with strong knowledge of Typescript for building scalable applications. Designing reusable and maintainable components with clean code practices, collaborative development in cross functional teams.

Node Js :

Knowledge of building server-side application, developing RESTful APIs and middleware patterns

UI & Styling :

Experience with Material-UI, Tailwind CSS , Ant Design implementing and managing themes.

WORK EXPERIENCE:

LEGAL REMIT (Lumbini Group) – FINTECH COMPANY

Canberra 87 Anthony Rolfe Ave, Australia – July 2024 – Present

- Use efficient libraries like Redux for complex state management.
- Built a real-time chat application using WebSockets (Socket.IO / STOMP) to enable instant messaging, presence updates, and live notifications with optimized client-server synchronization.
- Collaborate closely with backend teams to optimize API responses and data structures.

DIGI HUB – FINTECH COMPANY

Hadhighau 5 Kathmandu, Nepal – December 2022 – May 2024

- Applied JavaScript and HTML and CSS skills to create dynamic and interactive web pages.
- Utilized Design Library, JS-in-CSS, Styled-Component and other component libraries/tools to enhance the UI design and functionality.
- Used Git for version control and collaboration with other developer.
- Developed and maintained frontend applications using React JS,Type script, Hooks, Formik, Yup, Redux and REST API.
- Adapted to the fast pace working environment with a can-do attitude.
